

DECLARATION OF CONFORMITY

No. 18/2024

1. Product Name:

Underfloor Heating Foil

2. Product Type Designation:

Polyethylene (PE) Foil for Underfloor Heating

3. Intended Use:

- The foil is intended for use during the installation of hydronic underfloor heating systems, to protect the thermal insulation layer against construction moisture.
- The printed grid on the foil ensures precise pipe positioning.

4. Manufacturer:

Wigell Sp. z o.o. ul. Michałowicza 12, 43-300 Bielsko-Biała, Poland

5. Product Characteristics:

- foil made of polyethylene (PE)
- thickness 0.105 mm ($\pm 10\%$)
- tear-resistant

6. Additional Information:

PN-EN 1264-4

Strumień, 04.03.2024

(place and date of issue)
